

CONVENTION ENDS AT SAN FRANCISCO

CHRISTIAN ENDEAVORERS FIN- ISH THEIR WORK.

Successful Meetings Closed—Final Scenes in the Great International Convention at San Francisco—Notable Persons Address the Gathering—Delegates Are Scattering.

San Francisco, Cal., July 13.—Early Monday morning began the last day's work of the International Christian Endeavor convention. The morning session of the convention proper was opened in the Mechanics' pavilion by the Rev. Mr. Rhodes of St. Louis. After the usual praise services devotional exercises were conducted by the Rev. W. H. Scudder of Tacoma. Then the topic of the morning, "Christian Endeavor a Missionary Force," was taken up. The first speaker was Amos R. Wells of Boston. An address followed on "Foreign Missions," by the Rev. J. C. R. Ewing of Lahore, in which he declared that the teachers from India who have come as speakers to this country are not representatives of the Hinduism of today, but persons who have absorbed the truths of the sermon on the mount. The Rev. J. S. Davies of New York made an earnest plea for "systematic and proportionate giving to God." The missionary roll of honor was then read and a number of visiting missionaries were introduced to the delegates. An eloquent address by the Rev. Nehemiah Boynton of Detroit, on home missions was the last set speech of the morning. Then the committee of 97 was called to the platform by Secretary Baer, who presented through them to the Golden Gate union a testimonial for its effective work. This was not on the program, and was a genuine surprise.

The morning session at Woodward's pavilion was attended by an enthusiastic audience that half filled the auditorium. President Clark presided. The praise service was conducted by A. T. Sutherland, and devotional exercises were conducted by the Rev. H. Mosser of Reading, Pa.

The Rev. Charles Roads, D. D., of Chester, Pa., spoke of "City Evangelization Outside of the Churches." The address by the Rev. J. Wilbur Chapman, D. D., of Philadelphia, on "Deepening of the Spiritual Life Inside Our Churches," followed.

The banner presentation to the local city union having reported the best progress in the last year in promoting systematic and proportionate giving to God, aroused great enthusiasm among New Yorkers, who were possessors of this beautiful blue emblem last year, and the recipients of it for the coming twelve months. The presentation speech was made by the Rev. F. L. House of Attleboro, Mass., the banner being presented by the Rev. H. O. Knapp, vice-president of the New York city union, who said that metropolitan possessed 1,300 tithegivers in Endeavor ranks. New Yorkers in the audience responded with a song, "Bring Back the Banner to Me," and from the platform was waved a big blue and white Christian Endeavor flag. After singing the meeting adjourned.

There was a general rally of the junior societies at the Mechanics' pavilion in the afternoon. Of the 15,000 people within the walls at least one-half were children, and their interest in the proceedings seemed to surpass that of their elders at previous sessions. In the afternoon Woodward's pavilion was packed. Secretary John Willis Bauer of Boston presided. The most interesting feature was a series of so-called open parliaments, conducted by Christian Endeavorers.

At night those who managed to obtain entrance to either of the main meeting places were fortunate, for only 25,000 could be accommodated, and 10,000 more sought admission. Estimates made by leading business men agree that the people brought here by this great gathering will leave not less than \$1,000,000 in the city. All the leaders of the movement are pleased with the success of their efforts and with the outlook for the future of the society.

With the end of the convention, the thousands of visitors, delegates and others will take advantage of the opportunity and the cheap rates to visit many places of interest throughout the state.

Refuse to Haul Coal.

Cleveland, July 13.—Positive information has been received in this city that the Ohio railroads have decided to refuse to haul West Virginia coal. These roads include the Baltimore and Ohio, the Cleveland, Lorain and Wheeling and Wheeling & Lake Erie and the Cleveland, Canton and Southern. A prominent coal operator said this morning that unless the miners are represented at the meeting of the boards of arbitration at Pittsburgh the thing will be a farce.

The miners are not in a position to ask for arbitration," said he; "they do not want it. They have more than fulfilled their boasts. They have accomplished as much, if not more, than they said they would. They are in a position to dictate. In my opinion the strike will last sixty days at least."

Stolen Money Is Recovered.

South Bend, Ind., July 13.—A claim filed last Saturday by the First National Bank against the estate of the late

Joan E. Kerley, the former cashier, who committed suicide Aug. 12 last to escape the disgrace of the revelation of defalcations amounting to over \$24,000, was allowed by the administrator. The claim amounts to over \$32,000.

LITIGATION WAS EXPENSIVE.

Suit for \$800 Cost the Interested Parties \$75,000.

Binghamton, N. Y., July 13.—The Barbara Yagle case of Oneonta, which has been in litigation for several years, has been settled at a special term of the supreme court. The suit grew out of trouble over the construction of a block at Oneonta. Dudley T. Stevens of this city and Alfred C. Lewis of Oneonta were the architects. They sued to recover \$800 from Mrs. Yagle, which she refused to pay. At one time the case was in a fair way to be settled and Mrs. Yagle was about to sign a paper for this purpose, but changed her mind. The case was given to a referee, who rendered a verdict for the plaintiffs. The referee was charged with misconduct and an effort was made to set aside the verdict on this ground. The suit has cost the parties more than \$75,000 and has been in litigation several years. It has been before nearly every supreme judge in the state.

REPORTS ON STATE CHARITIES.

Presented and Discussed by National Conference at Toronto.

Toronto, Can., July 13.—The delegates to the international conference of charities and corrections met in general session Monday with H. H. Hart of the Minnesota state board presiding, and brief reports concerning the charitable and correctional institutions of the states were presented by a special committee. The discussions of these reports occupied the morning and afternoon sessions. In the evening there was a general session at which several new propositions on the organization of charity were submitted by prominent speakers, including Miss M. E. Starr of Iowa, C. M. Hubbard of Cincinnati, Mrs. W. H. McDonald of Pueblo, Colo.; Miss Morse of Boston, and Clarence Lowe of New Orleans.

Mrs. Maybrick in Luck.

New York, July 13.—A dispatch to the Herald from Washington says: "The chances of the release of Mrs. Maybrick from Woking prison, England, are considered to be more favorable than at any time during her imprisonment. Judge L. D. Yarrell of this city, counsel for Mrs. Maybrick, recently called on President McKinley, and the president is understood to have held out much encouragement to the prisoner."

Death of D. V. N. Lathrop.

Detroit, Mich., July 13.—The Hon. George V. N. Lathrop, ex-minister to Russia, died at 10 o'clock a. m. Monday at the Lathrop residence, Ford street west. He was stricken with heart prostration one week ago and since then has been in a comatose condition most of the time. Mr. Lathrop died peacefully, surrounded by the members of his family, Capt. Henry B. and Cyrus B. Lathrop and his daughter, Mrs. William Prall, wife of the Rev. Dr. Prall of this city. His other daughter, Baroness Heune, is in St. Petersburg.

Missing Banker Located.

Portland, Ore., July 13.—Anton Pfanner, the banker of Forest Grove, Oregon, who disappeared about six weeks ago, has been located in Victoria, B. C. L. Huff, the banker's son-in-law, has informed Chief of Police Berry that Pfanner is in a hospital in Victoria suffering from nervous prostration. Pfanner made an assignment of his property before he left, and an examination of his affairs shows that he was solvent and able to pay all his creditors in full.

Yellow Fever on Board.

San Francisco, July 13.—The steamer San Juan, from San Jose de Guatemala, arrived in port yesterday and went into quarantine. She had no doctor on board and consequently the body of a Chinese boy who died Saturday morning was taken in charge by the federal quarantine officer and a post mortem examination held. Dr. Blue decided that death resulted from yellow fever. The vessel will be held in quarantine five days.

A Bitter Contest.

London, July 13.—The bitterest conflict ever waged between labor and capital is now well under way. It has the form of both a strike and a lockout and was started by the Amalgamated Society of Engineers. It is spreading to the country, and there is no telling where it will end. The demand is for an eight-hour day and extra pay for extra time.

Bank of Portugal.

Lisbon, July 13.—The budget will be submitted to the cortes today by senator Ribeiro, minister of finance. It provides for the reorganization of the Bank of Portugal, a conversion of the external debt, a government monopoly in the manufacture and refining of beet sugar, the leasing of the state railways and changes in the tobacco and match monopolies.

Chinese Consul General Arrives.

San Francisco, July 13.—Among the passengers arriving here by the steamer Doric from the orient was Hon. Chang Yin Tong, who will be consul general at San Francisco.

Killed by Sunstroke.

Butler, Ind., July 13.—Gottfried Elismann, who was found dead in a hayfield yesterday and who was thought to have been murdered, is thought to have died of sunstroke.

BUT LITTLE CHANCE TO SETTLE MATTER

COAL OPERATORS NOT IN FAVOR OF ARBITRATION.

Miners Still Gaining—The Men Are Earnestly in Favor of Arbitration As a Means of Settling the Strike—Series of Conferences Are Arranged For.

Pittsburg, Pa., July 13.—It can be authoritatively announced that the coal miners' strike will not be settled by arbitration, at least for the present. W. P. Dearmit, president of the New York and Cleveland Gas Coal company, said Monday that he would have nothing to do with the arbitration boards of Ohio, Indiana and Illinois, as he has nothing, he says, to arbitrate. His three mines are in full operation at the 54-cent rate, and the strike has not affected him. Other prominent operators, including J. B. Zerbe of Cleveland, president of the Ohio and Pennsylvania coal company, the Beadling Bros., and others also stated there is nothing to arbitrate. Their declaration practically kills the arbitration plan of settling the strike. The unofficial board of conciliators will now try to arrange a conference independent of them.

Ex-Chief Justice Selwin M. Owen of Ohio said many operators are in favor of arbitration but are opposed to arbitrating. As neither the Pittsburg operators nor the miners invited the arbitrators to take a hand in the strike, the peacemakers spent most of the day trying to pave the way to friendship.

Commissioner B. F. Schmid of Indianapolis said that the whole situation hinges on what is done in Pittsburg, a fact early recognized by the people of Indiana. He said the operators of Indiana think an advance is practicable, and that they are in a way to give it if the other states can be put upon any basis that will at all allow of an advance. In fact the operators are of the opinion that an advance ought to be made.

All the states, with the exception of Kentucky and Tennessee, where the strike is on, will be represented in the conferences which are to be held during the next few days.

There is practically no change in the situation. Some of the independent operators in the Connellsville region that are working only about 50 per cent of their coking capacity are looking for contracts and are talking of joining the West Virginia operators for a pull on the market. The men of a number of companies, on the advice of the miners' leaders, have notified the superintendents that they will join in the strike if such a thing is attempted by the coke producers. H. C. Frick of the H. C. Frick Coke company, controlling about two-thirds of the ovens in the regions, says that he does not contemplate entering the market supplied by the mines now idle.

Sympathy With the Miners.

Indianapolis, Ind., July 13.—Gov. Mount said Monday that his sympathy is all with the striking miners in the present contest between the operators and the miners. He is investigating his authority as chief executive to take a hand in the struggle, and if he sees his way clear will appoint an investigating commission. The governor's action in that event will depend upon the report of the commission from actual contact with the strikers.

Reports from Headquarters.

Columbus, Ohio, July 13.—Information received at the national headquarters of the United Mine-Workers indicates that 150,000 miners have complied with the strike circular. The miners' officials express themselves as well pleased at the prospect of ultimate success and are gratified over the fact that the ends arrived at are being accomplished by peaceful methods.

May Strike in West Virginia.

Parkersburg, W. Va., July 13.—That West Virginia coal miners in general will join the strikers is as yet undetermined, but from indications in the Fairmont mining region a general strike seems probable. The largest mining interests are located there, and their action will no doubt govern matters generally throughout the state, causing all the other miners to follow their example.

OFFERED THE BOLIVIA MISSION.

Major Pangborn Is Asked to Accept the South American Place.

Denver, July 13.—Major Z. K. Pangborn, the veteran newspaper editor of Jersey City, N. J., who is in Denver en route home after a visit of several months on the Pacific coast, has received a telegram from the administration at Washington proffering him the position of minister to Bolivia. Although the major will not discuss his intentions, it is understood he will decline the appointment. His friends say he might accept a position of equal importance in one of the European countries, but at the age of 65 he is not contemplating any long journeys to countries in South America.

Goodman's Second Trial.

Ponca, Neb., July 13.—The second trial of Dr. Goodman, the Pender (Neb.) dentist, charged with the murder of his wife, began here this morning.

CRISIS IN THE EAST IS NOW AT HAND

GREAT BRITAIN AND FRANCE READY TO ACT.

Are Tired of Diplomacy—Rumor That Two Powers Will Recall Their Ambassadors to Turkey For Failing to Force a Peace—Russia's Hand Appears.

Berlin, July 13.—The Tageblatt's Constantinople correspondent says that the British and French ambassadors to Turkey are about to be recalled, owing to their government being dissatisfied with their conduct in connection with the peace negotiations.

It is stated that Emperor William, who is now on a northland tour, kept the telegraph wires between Norway and Berlin occupied with official dispatches during the whole of Sunday night. These dispatches, it is supposed, were in reference to eastern affairs.

Constantinople, July 13.—Following is the text of the collective note of the powers to Turkey: "The great powers have adopted the project of strategic rectification as it has been worked out by the military attaches and communicated to the sublime porte. In consequence, they have agreed to assure the ottoman government that they have arrived at a firm determination to put an end to the obstruction, the only effect of which is the prevention of the conclusion of a peace eminently in the interest of Europe."

Paris, July 13.—Yellow books were issued Monday which are chiefly interesting in that they confirm Russia's initiative in the European concert's eastern policy and Germany's holding aloof from the concert and insisting that energetic measures against Greece be adopted. They also show that Bulgaria and Servia in February last wanted to demand certain privileges from Turkey for Macedonia, but that Servia declined to ally herself under any pretext with Greece, and stipulated that Greece should not be a party to the demand.

FAURE'S MINISTRY MAY FALL.

Critical Situation in Deputies Over the Direct Taxation Measure.

Paris, July 13.—The government had a narrow escape from defeat in the chamber of deputies Monday. The ministers desired to postpone until autumn the discussion of the bill for the readjustment of the direct taxes, the passage of which would have relieved the peasantry. In the first division the government was defeated by a vote of 270 to 245.

M. Cocher, minister of finance, made a clever reply to the opposition, saying their attitude implied a preference on the part of the socialists for the existing system. A scene of wild confusion ensued, the socialists rising to their feet, shouting and shaking their fists. Another division was finally taken, and a motion for the immediate discussion of the bill was lost by a vote of 270 to 257.

Forty Dead, Eighty-Four Hurt.

Copenhagen, July 13.—A terrible railway disaster took place about midnight at Gentofte. The express from Bellingør ran into a passenger train standing at the station, wrecked eight carriages, killed forty persons and injured eighty-four others. Most of the victims are of the artisan class. The dead and injured have been conveyed in ambulance trains to this city. It appears that the collision was due to an error made by the engineer in reading a signal and by the failure of a brake to act. Thirty-two bodies were extricated.

Big Fire in Paris.

Paris, July 13.—A fire occurred Monday in the Autocar and Ordinary Carriage Works, in this city, and before the flames were extinguished twenty autocars and fifty ordinary carriages were destroyed, besides all the co-operative workmen's tools, causing a loss of 300,000 francs. Two men, one of whom an employee of the works, have been arrested on suspicion of having set fire to the works. They declare their innocence.

FIRM GRIP ON HAWAII.

Uncle Sam Means to Have Control of the Islands.

Washington, July 13.—The administration has taken steps to keep its grip on Hawaii. Any aggressive interference on the part of Japan will result in the landing of marines and the hoisting of the American flag, with or without the ratification of the pending annexation treaty.

The administration, realizing that some crisis might arise while the treaty still hangs fire in the senate, has taken steps to be prepared for any emergency. Rear Admiral Beardsley will have, when the next steamer arrives in Honolulu, instructions giving him power to act at the first sign of aggression on the part of Japan or trouble of any kind with which the local authorities are not able to cope.

The senate committee on foreign relations, having been informed of the purpose of the administration to assume control of affairs in Hawaii in the event of Japanese interference, do not consider that the annexation treaty is endangered by delay. The treaty will be reported to the senate, but unless some unexpected emergency arises in the islands it is not the present intention of the committee to press it to a final vote during the present session.

THORN ARRAIGNED.

Demurrer to the Indictment Made in His Favor.

New York, July 13.—Mrs. Augusta Mack and Martin Thorn, the alleged murderers of Guldensuppe, were arraigned in general sessions Monday to plead to the indictment found against them.

MARTIN THORN.

Their attorneys entered demurrers to the indictment, contesting the jurisdiction of the court on the ground that the crime, if one was committed, was done beyond the limits of New York county. During the statement of the counsel the two prisoners exchanged no look of recognition nor did they speak to each other. The demurrer will be argued on Wednesday, July 21.

THE BASEBALL REPORT.

Results of Yesterday's Games Played in the Various Leagues.

Chicago turned the tables on Brooklyn yesterday, but as the Colonels downed Philadelphia, Anson's Colts do not move up in the percentage column. Boston won its first Western victory on the present trip by defeating Cleveland, making seven of its eight runs in two innings. Clarke went in the box for Cleveland in the sixth inning, and held the leaders down to one hit. Baltimore won out on the end from St. Louis, and New York beat Cincinnati. Scores:

At Chicago—Chicago 2 0 6 1 0 1 3 0 *—13
Brooklyn 2 0 0 2 3 2 0 0—9

More Panama Disclosures.

Paris, July 13.—Emile Arton, who was convicted of bribery in connection with the Panama canal scandals, before the Panama canal commission made a sensational revelation regarding the way in which successive governments here connived at his escape and silence. He said the Boulangists offered him 1,000,000 francs for a document, the making public of which would have resulted in the overthrow of the Loubet ministry. M. Loubet, he said, had also tried to obtain certain documents from him.

Steel Men Take Lower Pay.

Pittsburg, Pa., July 13.—The special steel schedule of Jones & Laughlin's American Iron and Steel Plant was signed Monday at a conference of the workmen and firm, and work will be resumed to-day. The workmen accepted the terms offered by the company. It is said to be a slight decrease in wages on the price per ton, but an increase on the output, which will be much greater owing to the improved machinery. The iron scale is the only one still remaining unsigned.

Strike of Gold Miners.

Ishpeming, Mich., July 13.—The miners at Ropes' gold mine, forty in number, have struck for back wages. Clarence R. Ely, secretary of the company, disappeared mysteriously two months ago, and though his accounts are correct, the men grew suspicious of the ability of the company to pay. The mine has been running continuously for thirteen years, and has produced nearly \$1,000,000 in bullion.

Bank of Spain Near to Failure.

Madrid, July 13.—The statement of the Bank of Spain, which has been formally gazetted, has increased the adverse comment on the bank management. It shows a bank note circulation of 136,000,000 pesetas (\$27,200,000) in excess of the authorized issue.

SAM IS NOT AFRAID OF THE JAPANESE

WILL SETTLE WITH THE EAST- ERN EMPIRE.

Whether Or Not The Annexation Problem Is Decided, the United States Will Have to Arbitrate the Immigration Issue It Is Said—Tokio Government Is Cautious.

New York, July 13.—A dispatch to the Herald from Washington says: "Hawaii has offered to refer to arbitration the immigration question pending between herself and Japan, but the Tokio government has so far ignored the proposition."

"Telegraphic information to this effect has been received at the state department, and it is therefore possible to deny the report published that Japan had agreed to arbitrate the vexed question she is discussing with the Hawaiian government."

"The proposition was made in the reply sent by Hawaii and Minister of Foreign Affairs Cooper to Japanese Minister Shimamura's last note, reiterating the demand of his government that Hawaii recognize the principle of monetary liability as a result of her action in excluding Japanese immigrants."

"The Hawaiian authorities did not expect that Japan would accept arbitration."

"In fact, before Minister Shimamura began his correspondence with Mr. Cooper in regard to the matter he declared that his government would never consent to arbitration."

"At that time neither he nor his government had any idea that the strong arm of the United States was soon to be thrown around Hawaii, and it was because of this ignorance, state department officials say, that Japan assumed such a commanding tone in her negotiations with the little republic."

"It is said that Mr. Shimamura, in his last correspondence with the Hawaiian government, demands further explanations with regard to certain details connected with the immigration controversy, in which he holds that the Hawaiian authorities have committed an official offense against his government."

"The minister refuses to admit the principle of monetary liability and insists that the Japanese government does not want to get at the real merits of the controversy, otherwise it would acquiesce in the proposition to refer the matter to arbitration."

"In view of Mr. Cooper's reiterated refusal to comply with Japan's demand a great deal of interest is being taken in diplomatic and state department circles here as to the next move the government will make."

"It is the general impression now that the matter will be laid before the state department and a strong demand made that this government see that Japan's rights in the matter are allowed."

"It is the general expectation in administration circles that whether the senate ratifies the pending annexation treaty or fails to take action during the present session, this government will have to settle the immigration question with Japan."

MAY REPORT THE BILL SOON.

Said That the Tariff Measure Will Go to the House Thursday.

Washington, July 13.—A prominent member of the ways and means committee who is on the house conference committee is reported as having informed Speaker Reed that the Democratic members of that committee would be invited to meet the Republicans in the consideration of the tariff bill, and that the measure would be reported to the house Thursday. The member referred to refused to discuss the rumor, but it is given on the information of a highly credible Republican, who claims to have overheard the conversation.

The tariff conferees have struck some snags in their work. The minor matters were easily adjusted, but on all important features there has been no agreement. The house conferees are standing solidly by their bill, and the senate conferees are equally obstinate. The latter, in addition to presenting the present political complexion of the senate, have pointed out the difficulty that will occur if several reports of partial agreements and disagreements are made. They told the house members that it will lead to endless discussion; that they have no power to force a vote, and that there is not a majority in the senate to keep the senate in session in case of a filibuster against the conference report.

COLONEL CROCKER BETTER.

Flying Trip of the Sick Man's Brother From Ogden.

San Francisco, July 13.—The latest information from the summer home of Colonel Charles F. Crocker, where the Southern Pacific Railway vice president lies prostrated from a stroke of apoplexy, is that Colonel Crocker is resting quietly, with indications of recovery. In a flying trip from Ogden to the bedside of his stricken brother at San Mateo W. H. Crocker beat the record established some years ago by the famous Villard special train. This distance from Ogden to this city is 833 miles. Mr. Crocker covered it in 23 hours and 22 minutes, his time from Sacramento to this city was also remarkable, being 1 hour and 53 minutes.

JANESVILLE PEOPLE APPRECIATE READING MATTER.

City Stands Third Upon the List in the State—Report of Directors Suggests Appropriation of a City Building and Suggest Means of Making Saving in Providing One.

At the meeting of the council last evening, the aldermen:

Heard the communication of the New Gas Light Company, to the effect that as no provision for gas lights had been made in the new contract, that the company would govern itself accordingly. No action was taken.

Received a claim for damage because of the defective condition of South Main street.

Heard the sworn returns of ex-street commissioner Watson road, and ordered the various sums placed on the tax roll.

Heard Captain W. T. Vankirk, who spoke in behalf of the Oak Lawn hospital.

Allowed J. F. Sweeney to build on North Franklin street.

Approved the assessment rolls, and ordered the tax roll prepared.

Decided to raise \$25 by taxation this year, and apportioned that sum among the several funds.

Heard the mayor's declaration that he would sign no more due bills for the city.

Ordered street repairs, paid bills, etc., etc.

Aldermen McLean and Fife were absent. The reports of the municipal judge and the city treasurer were received referred and reported back for filing.

Claim For Damages.

Joshua Orall presented a bill for \$6.50 for damages done to his buggy while driving on South Main street. The bill was referred to the alderman of the Third ward.

E. B. Heimstreet's application for a druggists permit was referred to the license committee. Chairman Stoddard's report was favorable and the permit was granted.

Ex-Street Commissioner Watson filed his affidavits setting forth that he had built certain sidewalks according to law and the amounts were ordered incorporated in the tax rolls.

The appointment of Thomas Croft as special police was confirmed.

The assessment rolls were referred to the finance committee and afterward reported back as correct. The city clerk was ordered to prepare the tax rolls from them.

The clerk read the following communication:

New Gas Light Company's Note.

"To the Mayor and Common Council of the City of Janesville:

"Notwithstanding the fact that the bid of the New Gas Light Company would have saved the city from three to five thousand dollars per annum, the report of the committee adopted by the common council makes no provision whatever for continuing the present gas lights or for lighting any part of the city by gas; therefore, the New Gas Light Company assumes that the contract between the city and this company is terminated, and will act accordingly.

"Respectfully yours,

I. F. WORTENDYKE, Sup't."

"As no one is kicking except the Gas Company," said Mayor Thoroughgood, "we will let the matter stay right where it is." No action was taken.

The report of the board of directors of the Public library was read by the clerk, and ordered placed on file. It will be found elsewhere in this issue.

Plea For the Hospital

Capt. W. T. Vankirk, president of the Oak Lawn Hospital association, spoke for the association, asking the council to make the same appropriation as last year. The hospital, he said, was self supporting with the aid of this appropriation, but not otherwise.

Chairman McKey of the fire and water committee reported in favor of allowing J. F. Sweeney to build on North Franklin street. The report was adopted.

A number of bills were ordered paid on the report of Chairman Burnham, of the finance committee.

Alderman Kothman reported that the stock y rds were in good condition, and that no further trouble would be had, he thought.

To Raise \$71,425.

Alderman Burnham introduced the following resolution:

RESOLVED, By the mayor and common council of the city of Janesville, that the sum of \$71,425.00 be raised by taxation by municipal purposes for the year 1897, and that the same be apportioned into the following funds, as follows:

General fund.....\$ 6,000 00

School fund.....23,000 00

Bridge fund.....None

Lighting fund.....12,000 00

Fire and water fund.....9,000 00

Bonded debt fund.....5,125 00

Library fund.....3,000 00

Second ward fund.....	1,500 00
Third ward fund.....	3,000 00
Fourth ward fund.....	2,500 00
Fifth ward fund.....	1,800 00
Total.....	\$71,425 00

"If there is anything I hate it is to borrow money and give out due bills. I shall absolutely refuse to issue any more due bills. A report of the standing of the funds will be kept and I would like to have you watch it carefully said the mayor.

Alderman Burnham said: "The amount appropriated is \$4,225 less than last year. I think the funds will be large enough if carefully used. Last year \$10,000 was appropriated for the general fund but the city owed the county \$4,500."

Orders Are Adopted.

After the following orders had been adopted the council adjourned:

By Alderman Kothman—Directing the city engineer to examine the intersection of Cherry street and Washington avenue and report to the council what means can be adopted to secure the proper flow of surface water on said streets.

By Alderman Jones—For a block cross walk on the west side of Center avenue, at the intersection of Galena street, and plank crosswalk on the east side of Jefferson street at the intersection of Galena street; also that the street commissioner serve notice upon the owners of lots 165 to 177 inclusive, in Mitchell's third addition to Janesville to repair the sidewalks and raise the driveways on a level with sidewalks in front of said lots on Palm street.

By Alderman Rice—For a culvert at the intersection of Washington street and Linden avenue.

The Epworth League's Benefit.

A small audience attended the recital for the benefit of the Epworth League at Court Street church last evening. Through a misunderstanding, the Coterie Mandolin club was not present, but solos by George Bauman were finely rendered in their absence. The singing of Mrs. Christine Hawley was exceptionally enjoyable, while Mrs. Brano's numbers were rendered in her usual charming manner. That so fine an entertainment was not more liberally patronized is to be regretted.

Tent Meetings

The tent meetings on Cornelia street west of the Second ward school house, are well attended in spite of the rainy evenings. Subjects for the coming evenings this week will be prophecies relating to our times. The public is cordially invited.

MRS. FORD'S MUSIC POPULAR.

A Very Complimentary Note Is Received By the Janesville Composer.

The following complimentary note has been received by Mrs. Abbie A. Ford in regard to one of her latest songs:

Mrs. Abbie A. Ford, Janesville, Wis. Dear Mrs. Ford—I received your letter of June 26, and beg to say that we are both at work on your composition entitled "Have I Made You Angry, Darling?" Both Mr. Root and myself like this piece very much, and as we have recently advertised in The Clipper, we have received visits from a large number of professional singers, both here in Chicago and at our New York office. You know that "all things come to those who wait," and we think that you will not have to wait very long before we make the name of Abbie Ford known all over the country as a writer of popular music. Very truly yours,

WM. MCKINLEY,

President McKinley Music Co.

The annual report of the public library shows that Janesville people are lovers of books. The Bower City is now third on the list in this state in this respect. The report was presented to the council last evening and is as follows:

TO THE MAYOR AND COMMON COUNCIL OF THE CITY OF JANESVILLE:

In submitting to your honorable body the account of our stewardship as board of directors of the public library for the year ending June 30, 1897, we report that we have added to the library by purchase in that time 1,069 volumes, as against 736 for the preceding year. We have also added forty eight volumes of bound magazines and fifty six of state and national reports and twelve volumes on political science by donation, making in all 1,212 volumes. Of the books added by purchase, twenty seven were to replace worn out volumes, making a net gain to the library during the year, 1,185. In the same time we have had 345 books rebound and restored to the shelves and no books reported as lost. Upon the books now in the library we are carrying \$9,000 insurance, the amount of insurance \$1,000 since our last report.

The total number of books drawn out during the year is 39,471, showing a gain of 10,210 over the number for the year ending June 30, 1896, and being the largest number drawn out for reading and study in any year since the organization of the library. The greatest number drawn out in any one day was 342 the smallest number twenty. And while it is gratifying to note the large increase in the number of books taken home by readers, it is equally gratifying to report that the attendance of students at the reading tables has increased in the same satisfactory proportion.

In the class of reading matter drawn out by the public library continue to fill the greatest proportion. This is the condition in all public libraries. We have no desire to criticize the taste of the public in these matters, but at the same time it is a cause of regret that greater use is not made of the volumes of history, biography, science and travel that fill our shelves, and that go to make the very foundation and worth of a public library. To induce readers to turn their attention to these works we have adopted the plan of issuing two cards to each applicant when desired. A white card entitling the holder to draw any book of any class that is permitted to be taken from the library, and a yellow card entitling the holder to a book from any class other than fiction and juvenile works, and by the use of this system we hope to induce readers to turn their attention to those lines of works of which we are justly proud of our ownership.

We have now in the public library 11,379 books that are permitted to be drawn out and taken from the library rooms by readers, 476 volumes that are to be used only on the reference tables; 810 volumes of bound periodicals, and 2,064 volumes of government report, making a total of 14,669 bound volumes. While in many particulars the present quarters of the library are very satisfactory, being central in location, yet the time is rapidly drawing near when we will be forced out of these quarters for lack of necessary room. We may be able to get along in the present location for the next three years, but after that larger rooms will be necessary. And in this connection we desire to suggest to the council the advisability of a city building. It may be wholly outside of our province to enter upon this subject, but we wish to call your attention to the fact that in the public library the city owns property worth not less than \$25,000, and that this property is always exposed to more or less danger from fire, that we cannot carry full insurance upon it; and that the matter of rent, insurance and janitor's pay, is a considerable sum. These expenses of the library, added to the rental of the municipal court, and the annual sums paid to the sheriff for keeping city prisoners, or "lock-up fees" as they are called, would pay the interest upon a sum that would go far towards furnishing the city with a good building for general municipal purposes. As we have stated, the library can remain in its present location for three years more. After that, however, larger quarters must be provided for.

The following is a statement of the moneys received and paid out during the year ending June 30, 1897:

Balance June 30, 1896.....\$ 796 23

outstanding bills and meet the expenses of the library until the next appropriation is available and believing that the money expended for library purposes is well expended for the public good, we would ask an appropriation for the coming year of the same amount as that given to us in 1896.

The board of directors acknowledge the receipt of twelve valuable volumes upon political science, from the Fort-nightly club.

The following are the members of the board with the dates of the expiration of their respective terms of office:

Stanley B. Smith, Orrin Bemis, Gertrude Cobb, June 30, 1897.

Mrs. A. P. Lovejoy, Mrs. C. Butler, Charles C. Russell, June 30, 1898.

Mrs. O. H. Fethers, William Bladon, Horace McElroy, June 30, 1899.

We have also to report that under the provisions of chapter 92, session laws of 1897, the principal of the Janesville high school becomes a member ex officio of the board of directors of the public library.

Dated June 30, 1897.

It costs over \$7,400 a day to operate Ringling Bros' enormous exhibition. This is, in itself, a proof of the immensity of the institution.

THE five long trains of double cars used for transporting Ringling Bros' World's Greatest Shows from city to city have a floor space of over 130 ordinary railway cars. The big show comes Friday.

JOHN KLINE has returned to Beloit from his trip to England, where he has acted as manager of Evan Lewis, the wrestler. He reports a good business, and that Lewis is winning honors in England, although the most famous athletes are trying to avoid meeting him. Lewis is still in England, and may go to France.

MISS Ada and Kathryn Fenton left this morning for Milwaukee. From there they will go to Toronto, where the international convention of Epworth Leagues is held. Miss Ada is the delegate from Court Street church. Miss Kathryn will go from Toronto to New York city, where she will be the guest of Mr. and Mrs. C. R. Van Buskirk for a month.

Why

Because

Do people buy Hood's Sarsaparilla in preference to any other,—in fact almost to the exclusion of all others?

They know from actual use that Hood's is the best, i. e., it cures when others fail. Hood's Sarsaparilla is still made under the personal supervision of the educated pharmacists who originated it.

The question of best is just as positively decided in favor of Hood's as the question of comparative sales.

Another thing: Every advertisement of Hood's Sarsaparilla is true, is honest.

W. W. CLARK, Manager,
Janesville, Wis., July 13, 1897.

Burglars made an attempt to enter
Operator Davey's house Thursday
night. The screen was torn from the
window, and footprints were visible
on the ground, and fortunately his
sons, Carl and George, were sleeping
on a mattress beneath the window
and the thieves could not get in with-
out stepping on them.

At the N. E. A. meeting in Milwau-
kee last week a photograph was taken
of the former presidents of the State
Teachers' Association. There were
twenty-three in the group and four of
the number were Milton College men,
viz: presidents W. C. Whitford, Albert
Salisbury, L. D. Harvey and Hon. M.
T. Park.

Horace M. Davis, of North Loupe,
Neb., formerly a student in the col-
lege, visited Milton friends this week.
He is to take charge of a High school
at Ord, Neb., the coming year.

Richard Bolan, while fooling with
another boy, received a cut on his head
from the blade of the hoe, that cut a
gash in the scalp five inches long. No
serious results are apprehended.

Royal W. Bullock, of Boulder, Col-
orado, who has been in attendance at
the N. E. A., took advantage of being
in Milwaukee to run out here and visit
friends.

Professor H. W. Rood and wife, of
Washington, are spending their summer
vacation with their children, Messrs.
and Mesdames J. R. Wheeler and L. P.
Rood.

Miss Doty, of Burke, formerly prin-
cipal of our public school, is the guest
of the Misses Nelly and Mattie Brown.
Frank M. Wilbur, wife and daugh-
ter of Orange, California, will arrive
in town this week, to visit relatives.

Professor J. B. Borden has gone to
Madison, where he will spend a month
at the University summer school.

Dr. Fred D. Rogers, of Chicago, vis-
ited his mother, Mrs. E. B. Rogers,
Sunday and Monday.

Mrs. W. S. Alexander and daughter,
of St. Paul, arrived at the Alexander
homestead Saturday.

County Clerk McIntyre and Drug-

Rock River News

Rock River, July 13—Mrs. Almira
Vincent is having the east part of her
house painted, John Smith doing the
job. Mamie and Walter Rogers of
Whitewater, are visiting their grand-
parents, Mr. and Mrs. N. M. Rose, at
this place. George Crandall was re-
elected treasurer at the school meet-
ing Tuesday evening. Mrs. DeForest
Buten of Milton Junction, visited at
Mr. and Mrs. Orlo Vincent's last Fri-
day. Elder W. C. Whitford of Milton,
preached here last Sunday. The Sun-
day schools at this place are preparing
for a picnic in the near future. Miss
Orpha Looftboro of Milton, visited her
cousins, Mr. and Mrs. Wade Looftboro,
a part of last week. Mrs. N. M. Rose
is quite sick with tonsillitis. Earl and
Ethel Godfrey of Lima, called on
friends here Monday. Those having
raspberries are kept busy nowadays.
Jennie Rose called on friends in Har-
mony, Monday. An ice cream social
was held at the home of Mr. and Mrs.
Channey Gray last Thursday even-
ing. A good crowd was present and a
pleasant time reported by all.

Magnolia Mention.

Magnolia, July 13—Elder Burkey,
of Monroe filed the Advent pulpit
Sunday morning and evening. His
text in the morning was "If a man
die shall he live again." All were
pleased with him as an expounder of
the word. Cherries which have been
an abundant crop this year are about
all picked and canned up for winter
use. Mrs. Eugene Ootson and chil-
dren took their departure for their
home in Dakota, Wednesday after a
three weeks visit here. There will be
a social at George Letts' Friday night.
Mr. and Mrs. Fred Gillman were
callers here Sunday. They made the
trip on their wheels. Mrs. Mary
Acheson and daughter Zita were in
Albany for a few days. Several trees
were blown during the storms of last
week.

Barkers' Corners.

Barkers' Corners, July 13—The
Ladies Aid society will meet with Mrs.
William Cox this week Thursday af-
ternoon. Don't forget the ice cream
social at Robert Hodge's, Wednesday
night, July 14. Phoebe Taylor spent
last week at Milton Junction, visiting
her sister. The prospects for a good
harvest were never more promising
than at present; crops of all kinds are
looking good. August Wankle is
to have a new well put down.

WHAT JOHN KLINE SAW IN EUROPE

THE BELOIT MAN WAS A CLOSE OBSERVER.

Compares the Condition of the Work-
ing Men In Foreign Countries With
Those Living In America, and Tells
a Pathetic Incident—Wrestler
Lewis Is Doing Well.

John Kline arrived home Saturday
night, hale and hearty from his trip
to England. He enjoyed his visit
abroad very much, is glad he went
abroad and just as glad to be home
once more. Evan Lewis, the wrestler,
who went abroad with Mr. Kline, is
still in England, having a few more
engagements to meet. Mr. Kline says
that Lewis did great work during the
month he was there, and won every
match. He was unable to make any
engagement with Connors, the favor-
ite Englishman, but Mr. Kline believes
the men will meet before long. It will
be a great match if they do," says The
Beloit Free Press.

That Mr. Kline was a good observer
and had his eyes open to other things
than wrestling matches is very ap-
parent to those who converse with
him. Before he went away he pro-
posed to spend his spare time in
England investigating the condition
of the working classes and he spent
much of his time among them. "I
want to tell you," he said, "I learned
to my fullest satisfaction how
Englishmen live so cheap. They don't
have anything. Our working people
don't know what it is to live poorly,
compared with the people I met."

Life of the People.

"Yes, many of their prices are
cheap, the cheapest thing they have
being their ale, beer and whisky. A
few cents gets them all of these drinks
they want. But their ale and beer
never gets near ice. They take it
warm. Our people wouldn't drink
like that."

The matter of their cooking natu-
rally interested Mr. Kline, who is con-
siderable of an expert in that line, and
said he was surprised at the generally
poor cooking he found. The
prevailing custom of "kipping"
disgusted him. One couldn't
turn around without a "paw" being
stuck out for a penny, and when one
had met the demand for these little
fees he was paying well for what he
got. He found people kind, courteous
and very much interested in American
ways.

A butcher who was cutting up
sheep's heads, once asked him how
much his people had to pay for sheep's
heads, and expressed doubt of his
veracity when Mr. Kline told him the
American workmen didn't eat that
part of the sheep.

The English barber shop was to
John a thing of horror. No tilting
chairs and mighty buzz service—to be
sure you escaped for a penny, plus tips,
but Americans are not used to that
kind of a tonorial parlor.

The Railway System

The railway system was a surprise
to him. You got no checks for your
baggage but had to rush about, tip
porters and cart men and claim your
luggage. How the English people
would tolerate such a system he
couldn't understand. "But the worst
thing about the travel," he said,
"was the number of classes of coaches.
There was first class, second class,
third class and fourth class. All
different accommodations and prices,
and it took a lively man to
get around where his ticket entitled
him a place to ride." The closing
of the public houses or inns at an
early hour evening was a surprise to
him. "You can't get into those places
after eleven o'clock at night, and eat-
ing houses would not serve a meal be-
fore nine o'clock in the morning.
Thousands of working men go to their
toll without any breakfast." The
public parks of Manchester—that is
where he made his headquarters—all
close at nine o'clock.

A Pathetic Incident.

Speaking of the poverty of the
people Mr. Kline relates a pathetic in-
cident. One chilly, damp morning
about six o'clock he took a walk, wait-
ing for his breakfast, and on an im-
portant thoroughfare he saw probably
twenty women crouching against the
building, either huddled together or
alone as it happened. Approaching a
policeman he asked:
"What are these women doing
there?"
"Sleeping, I suppose."
"What, out all night in the chilly
air?"
"Yes."
"Why do they do it?"
"Because I suppose they have no
other place to sleep."
"This made my blood boil, and I said
emphatically, 'Well, I tell you what,
in New York or Chicago they would
have been found a place to sleep a
night like this.'"

To this the policeman remarked that
his city had no such place provided for
such unfortunate.

ELASTIC STARCH

A GREAT INVENTION
REQUIRES NO COOKING.
MAKES COLLARS AND CUFFS STIFF AND NICE
AS WHEN FIRST BOUGHT NEW.
PREPARED FOR LAUNDRY PURPOSES ONLY

ONE POUND OF THIS STARCH WILL GO
AS FAR AS A POUND AND A HALF
OF ANY OTHER STARCH.

MANUFACTURED ONLY BY
J. C. HUBINGER BROS. CO.
KEOKUK, IOWA. NEW HAVEN, CONN.

ELASTIC STARCH has been before the people of the United States for twenty-three years
and is without doubt the greatest starch invention of the Nineteenth Century. Last year its sales
principles by men who have had years of practical experience in fancy laundrying. It makes
ironing easy, restores old summer dresses to their natural whiteness, and imparts to linen a beau-
tiful and lasting finish. It is the only starch manufactured that is perfectly harmless, containing
neither arsenic, alum, or any other substance injurious to linen, and can be used even as a baby
powder.

A SHARP BASIS.

That foreign nations should be willing to do their best to reduce the duty on their goods coming into the United States is not surprising, but their protests do not have the right ring.

By way of showing of how little value their statements are, an investigation has been made in Washington of the assertions made by Editor Klett, one of the South American guests, in his Cincinnati speech recently, in which he complained that the United States was about placing for the first time a duty on Argentine wool, and asserted that the balance of trade between the two countries was in favor of the United States; also that the tariff laws of his own country placed on Argentine wool, petroleum, and other articles on the free list. An investigation of the facts show that the statements are all grossly inaccurate. Argentine wools have been compelled to pay tariff under republican legislation in the past, the balance of trade is just the reverse of the statement made by Mr. Klett, and the Argentine tariff levies duties of from five to forty per cent on American machinery, with the exception of that for farm use, while the duties on kerosene amount to nearly five cents per gallon. If this is a sample of the statements upon which foreign countries are basing their protests against our proposed tariff legislation, it is not surprising that our own statesmen pay no attention to them.

HOLDING TRUSTS IN CHECK.

Senator Sherman does not mince words when dealing with trusts. He regards the problem of dealing with these bodies as the most serious which the republican party has to solve. It is a problem which the republican party has made some attempts to solve and which it will have to give serious attention to, during the life of the present congress. The Sherman anti-trust act of seven years ago has not met the expectations of its framers, but it has served a purpose by showing in a general way the sort of legislation which is needed to combat the trust evil. The question of curbing the "combines" is one of the most complex which presents itself to the practical legislator, but the work will have to be continued until they are brought under restraint. No party except the republican has the ability or the courage to undertake this task earnestly and intelligently.

By holding out a little while the Milwaukee school board bought its anthracite coal for \$5.14 a ton. This was a case where the danger of delay was most appreciated by the coal trust.

Even the numerous crimes the Younger brother have not committed during their last twenty years in prison hardly seem to justify a pardon.

The place La Follette refused doesn't seem to interest folks as much as the amiable conjecture about how big a place he is really after.

EMERALD GROVE NEWS AND NOTES

Why One of the Aldermen Had Warm Feet—Other Gossip.

Emerald Grove, July 13.—Last week a pair of felt boots were worn by the first ward alderman of this place. Mrs. Anna Davies and two children of Maplewood, are stopping at the McArthur's. Miss Ethel Wasgath and Miss Beattie Jackman of Janesville, are the guests of Miss Edith Wright. The population of this vicinity was increased one on the 12th inst. Mr. and Mrs. Asil Lone welcomed girl No. 3. Get your very best machine oil of Gillies & Jones. If any person finding a case containing a pair of gold bowed spectacles on the road between J. T. and C. W. Boynton's, they will be suitably rewarded by leaving them at the Emerald Grove store. William Kirkpatrick had his valuable imported Scotch collie poisoned last week. She was highly bred and admired by all who saw her. Arthur Barless was up from Chicago last week and spent a few days with his parents. John Little has the best piece of corn between here and Janesville. We are having enough rain for seasons. The weedy corn and tobacco fields are numerous.

WOMAN FALLS DEAD IN HER GARDEN

SUDDEN DEMISE OF MRS. MICHAEL EGAN.

Neighbors Saw Her Topple Over, and Summoned Assistance, But Life Was Extinct Before the House Was Reached—She Had Been in Good Health.

While engaged in picking peas in her garden this noon, at 456 South Jackson street, Mrs. Michael Egan was seen to topple to one side and fall to the ground, and before medical assistance arrived, she was dead, as the result of hemorrhage of the lungs.

Mrs. Egan arose this morning in good health and did not even as much as complain that she was ill. This noon she went to work in her garden, as has been her usual custom. At 12:40 o'clock, while George Airis, a neighbor, was passing the house he noticed Mrs. Egan fall. He immediately summoned assistance and the woman was removed to the house where it was found that life was extinct.

Mrs. Egan was about sixty-three years old and has been a resident of Janesville about forty years. Besides a husband she leaves a son, William Egan.

The funeral will be held Thursday at 9 a. m. from St. Patrick's church.

MRS. PETERSON'S STORY.

I have suffered with womb trouble over fifteen years. I had inflammation, enlargement and displacement of the womb.

The doctor wanted me to take treatments, but I had just begun taking Mrs. Pinkham's Compound, and my husband said I had better wait and see how much good that would do me. I was so sick when I began with her medicine, I could hardly be on my feet. I had the backache constantly, also headache, and was so dizzy. I had heart trouble, it seemed as though my heart was in my throat at times choking me. I could not walk around and I could not lie down, for then my heart would beat so fast I would feel as though I was smothering. I had to sit up in bed nights in order to breathe. I was so weak I could not do anything.

I have now taken several bottles of Lydia E. Pinkham's Vegetable Compound, and used three packages of Sanative Wash, and can say I am perfectly cured. I do not think I could have lived long if Mrs. Pinkham's medicine had not helped me.

BIG JUDGMENT IS RENDERED

Twenty-Two Thousand Dollars Involved in Order Made Today.

A foreclosure judgment amounting to \$22,000 was rendered this afternoon in the circuit court by Judge John R. Bennett at a special sitting for Jefferson county, in the case of O. H. Meyer of Milwaukee, vs. the A. Fuermann Brewing company of Watertown.

Attorney Cole of the Milwaukee law firm of Miller & Wahl, appeared on the part of the plaintiff.

The A. Fuermann Brewing company is now in the hands of an assignee and this foreclosure means the disposal of the property involved. It was one of the largest foreclosure actions that has been ordered by the circuit court in many days.

Energetic Women.

The other day when the women of Rockford, Ill., "ran" the trolley cars they realized a handsome sum in consequence for their aid society. Last winter this society helped to support the families of 600 unemployed men. The cars were packed from early morning until 12 o'clock Saturday night, and the men who paid a \$5 bill for a ride of two or three blocks were voted "angels."

Forger Pleads Guilty.

Urbana, Ohio, July 13.—Z. T. Lewis, the famous bond forger, pleaded guilty and was sentenced to eight years in the penitentiary. His fraudulent operations in bonds are said to have amounted to \$250,000.

COMMON SENSE CURE.

Pyramid Pile Cure Cures Piles Permanently by Curing the Cause.

Remarkable Remedy Which Is Bringing Comfort to Thousands of Sufferers.

Probably half the people who see this article suffer from piles. It is one of the commonest diseases and one of the most obstinate. People have it for years and just because it is not immediately fatal they neglect it. Carelessness causes no end of suffering. Carelessness about so simple a thing as piles has often caused death. Hemorrhages occur from no apparent cause and loss of blood causes death. Hemorrhages occur during surgical treatment, often causing death.

Piles are simple in the beginning and easily cured. They can be cured even in the worst stages, without pain or loss of blood, quickly, surely and completely. There is only one remedy that will do it—Pyramid Pile Cure.

It allays the inflammation immediately, heals the irritated surface and with continued treatment reduces the swelling and puts the membranes into good, sound, healthy condition. The cure is thorough and permanent.

Here are some voluntary and unsolicited testimonials that we have lately received:

Mrs. M. C. Hinkley, 601 Mississippi St., Indianapolis, Ind., says: Have been a sufferer from the pain and annoyance of Piles for fifteen years, the Pyramid Pile Cure and Pyramid Pills gave me immediate relief and in a short time a complete cure.

Major Dean, of Columbus, Ohio, says: I wish to add to the number of certificates as to the benefits derived from Pyramid Pile Cure. I suffered from Piles for forty years and from itching piles for twenty years and two boxes of the Pyramid Pile Cure has effectually cured me.

Most druggists sell Pyramid Pile Cure or will get it for you if you ask them to. It is one dollar per package and is put up only by the Pyramid Drug Co., Albion, Mich.

A Little More Cost Brings Big Profits.

The addressing, folding, inclosing, sealing and stamping of five thousand circulars, with postage, will cost at least \$65, whether the circular is good or bad. Notwithstanding this fixed charge, some strive to save a dollar or two on the cost of printing, although the goods advertised are to be judged by the character of the printing, just as a house is judged by the character of its salesmen. Good printing costs but little more, and that "little more" brings greater returns than any other part of the cost. Order your printing where good work is assured.

THEY SAY HERMAN SOLD THE LIQUOR

MAN IS CHARGED WITH "BOOT-
LEGGING."

Officers Allege That He Peddled Ardent Fluid From a Wagon At the Fourth of July Celebration At Magnolia On July 3—Other Cases Before Judge Phelps.

Frank Herman was before the municipal court this morning charged with selling liquor without a license in the town of Magnolia, during the celebration of the Fourth of July 3. It is alleged that Herman has done a very profitable business in vending fluids from a wagon. These beverages, or at least those in sight, so it is said, all bore innocent "pop" and "sarsaparilla" labels. The people were greatly shocked at the report that the contents of the bottles might be less innocuous than their labels, and that things generally are not always what they seem. There are, it appears, a goodly number of ye citizens "good and true", who are now pinning for the scalp of him who made them think they were drinking ginger when they say they were really toying with the ardent. Herman will have trial on Sept. 20 before the municipal court. He was released on bonds of \$100. Wm. Smith appeared for Herman and District Attorney Jackson for the state.

Herman denies the charge. It is said that he bottled liquor and then sold it at retail from his wagon.

Girl Wept in Court.

Tears chased one another down the rosy cheeks of little fourteen-year-old Louise Thomas this morning as she occupied a front seat in the municipal court and heard the evidence that was to determine whether or not she was to be sent to the reform school. The case grew out of a family feud, with the father on one side, and his sons and daughters on the other. Harvey Thomas of Indian Ford, a man who has raised a family of eleven children, was on hand to tell his reasons why his daughter should be sent to some school where she could be looked after. Two grown up daughters and sons were also there to protest against their sister being taken from them.

Case is Stayed.

Mr. Thomas, when called as a witness, said that about two years ago he placed his 14 year old daughter Louise in the home of John K. White in the town of Fulton. After remaining there a few months she got a notion that she wanted to see what the city was like and made her way to her sister's home in Edgerton. This performance she repeated several times. Mr. White, who has resided in the town of Fulton for 31 years, said that Louise was a bright girl and that she was smart for her age, but she didn't like to go to school.

Mrs. Wallace Hallett, daughter of Mr. Thomas, stated that her father had always tried to make trouble in the family and that she hoped she would have better luck in raising her family than he did in raising his.

Judge Phelps, after giving the father, sons and daughters plenty of good advice, ordered that they should go to their homes, and adjourned her case until September 13, in order that the girl might be found a home in some good family.

Says Burtness Swore.

Thomas Burtness, a well known farmer of the town of Spring Valley, pleaded guilty this morning in the municipal court to the charge of using abusive language and was fined \$1.00 and costs. Ever Anderson, a former neighbor of Burtness, was the complaining witness. Mr. Anderson alleges that he and Burtness have been neighbors and friends for some time, but of late all has not been as it should be. Burtness is the owner of a number of valuable cattle which he has allowed to roam at large, which fact so displeased Anderson that he had the cattle put in the pound. When Burtness learned of this he swore at Mr. Anderson and Anderson caused his arrest.

David Brown Acquitted.

David Brown did not assault Chris. Prien, and the case begun by Prien in the municipal court came to an end today by the acquittal of Mr. Brown. Prien found Brown's horse entangled in a wire fence, and brought the beast to this city. Brown recognized the beast and claimed it. In the course of the talk that followed, Prien claimed to have been assaulted. The evidence did not support Prien's statement, however, and Mr. Brown was cleared of the charge.

LOOKS OVER "CLAM FIELDS."

Richard Finley Pays a Visit to Brownstown and Vicinity.

Richard F. Finley left this morning for Brownstown and vicinity to look over the "clam fields" of that vicinity. During the past few days Mr. Finley has received numerous notices from clam hunters in that vicinity who are now willing to dispose of their accumulation of clams, which amount to hundreds of pounds.

VETERANS TO MEET, AT THE JUNCTION

COUNTY SOLDIERS AND SAILORS MAKE PLANS.

President McIntyre and Treasurer Palmer Visit the Village—Committees To Be Named At Once—Large Attendance Is Expected—Few To Attend the Meeting At Buffalo.

President W. J. McIntyre and Treasurer W. G. Palmer, of the Ex-Soldiers' and Sailors' association of Rock county, were in Milton Junction yesterday afternoon, to complete arrangements for the coming meeting to be held there on August 12. The committees which will have the work in charge will be appointed at once. President McIntyre said that the present

W. J. McIntyre.

indications pointed to a very pleasant reunion, and it is expected that about 1,000 strangers will be in Milton Junction on that day. Every preparation will be made to care for all who may wish to attend, and the plans are now well under way.

Just who or how many from this city intend to attend the G. A. R. meeting to be held in Buffalo next month, is still a matter of much speculation. Local members say they cannot afford to take such a long trip, even with the rates placed at one cent a mile. Local railroad agents claim they have had several inquiries from parties who expect to go, but in the majority of these cases they were not G. A. R. members, but people who were anxious to take the trip east while the fare was cheap.

FEW PATRIARCHS ARE COMING

Fewer Delegates Than Were Expected To Be Here Tomorrow.

The present indications are that the number of delegates to the national convention of the Patriarchal circle which opens tomorrow, will be nearer 75 than 150. A prominent member of the order said this morning that the prevailing hard times would have something to do with the number in attendance, while the fact that the order is a comparatively new one would tend to make the attendance small.

Supreme Secretary G. C. Riding will arrive in the city this evening from Morris, Ill., and the other officers and delegates are expected tomorrow.

The program:

WEDNESDAY, JULY 14.

9:00 a. m.—Escort of Supreme Temple to Concordia hall, where address of welcome will be delivered by the Mayor Hon. John Thoroughgood. Responses by supreme officers.

CROWDS MADE TRAINS LATE.

Ringling's Circus Drew An Immense Throng To Monroe Today.

Several trains on the St. Paul road were late this morning on account of Ringling Bros. circus to Monroe. The Monroe-Janesville passenger was twenty minutes late, the delay being caused by the unloading of the crowd at Monroe, the train being filled from one end to the other. The conductor says the town was packed with one mass of people all through the business streets long before the time scheduled for the starting of the parade.

SUMMER SCHOOL A SUCCESS

Attendance Is All That the Management Could Expect.

The Wisconsin Institute and Review school received several additional students today. They arrived on the morning trains from different parts of the state, although Rock county and the adjoining counties can lay claim to the greater portion of the students now enrolled. In all departments the work was well under way today and the attendance is satisfactory in every respect to those having the work in hand.

Oxfords at Richardson's.

Next week Richardson offers 100 pairs of front elastic, combination colors, blacks, olives and a few chocolates, in good sizes, from 3 to 6, at \$1.50 a pair; goods that have always sold for \$3.50; also 1,000 pairs of oxfords of all kinds at bargain prices. Good time to lay in a stock of these suitable summer shoes.

STRIKE WON'T STOP THE CITY PUMPS

WATER COMPANY GETS SUPPLY OF COAL.

Sheds Are Piled Full and Manager Hyzer Has a Load Off His Mind In Consequence—Railroads Are Well Provided For, And Can Get More If Necessary.

Manager Hyzer, of the Janesville Water Company, smiles contentedly these days.

One hundred and sixty-four tons of coal are stored in the sheds at the pumping station, a "coal famine" has no terror for him. Janesville people are not now in danger of losing the water supply because of a lack of fuel.

"We have the coal piled up and ready for use," said Manager Hyzer yesterday afternoon, "and a load is off my mind. We received notice from the Wilmington company that they could fill orders 'this day only,' and to answer by wire. Consequently we have our supply."

No Janesville firm, in all probability, will feel the effect of the strike, although many of them have been on the anxious seat.

Local dealers have good supplies in their sheds, and for at least thirty days to come, there need be no fear of a famine. Both the Northwestern and the St. Paul railroad companies have a large supply on hand in this city, and with the assurance that more is at hand whenever they call for it, they are not spending much time in worrying over the matter.

The railroads have been confiscating coal all over the country. They can seize coal in course of shipment over their lines, on the grounds that their trains carry the U. S. mail, which must be forwarded at all hazards.

DIXON PLAYING GOOD BALL

The Janesville Man's Work Pleases Jackson, Mich. People

Fred Dixon, who is now playing ball with the Jackson, Mich. team, of the Michigan state league, is winning laurels by the score. The Jackson team recently played the Washington national leaguers but were defeated by a score of 12 to 8. During the game Dixon's infield work, says the Morning Patriot of that city, was brilliant and his acceptance of a number of chances was without an error. His batting record is above the average member of the team and as a "hard worker" he holds a front position on the team. He is at present playing in the capacity of catcher and first baseman.

CHANGES IN WOOLEN MILL

New Attachments Added to the Spinning Room Machinery

During the last few days an important improvement has been made in the Janesville Woollen mill equipment. Several attachments have been put on the Bramwell feeders in the spinning room. The attachment is an automatic feeder that insures a regular and even supply of wool in the yarn machines and thus guards against defective yarn.

We can only advise you to look over the various styles and study their descriptions carefully.

Whether you choose a Kodak, a Kodet, a Bullet, or a Bulls-Eye, you will get your money's worth, but which instrument will best suit you you must judge for yourself.

It is obvious that for the finest work where a tripod is to be largely used, the Folding Kodaks are best and that one of the smaller instruments is most convenient for a bicycle journey, while a No. 3 and No. 4 Kodak is especially desirable for the ordinary tourist.

DON'T FIRE AT THE EDGE

You Have Paid for the Bullet, Make It Hit the Target.

If a man wants to hit a target with a bullet he does not start firing round in a general sort of way in the hope that one bullet will hit something. He takes definite aim at the bull's eye, and does his best to hit it. It is the same with advertising. You do not want to go firing round at anybody and everybody in an ad, but you do want to aim at something and somebody in particular. Some years ago there was a famous trial of a farmer for shooting a boy. The farmer heard a noise in the orchard and fired off his gun into the darkness and had the misfortune to kill a boy. It was proved at the trial that he had not aimed at the victim, and in fact had not seen him, but that he had fired quite at random.

The judge summed up in these words: "The prisoner fired at nothing and missed it."

We suppose, sometimes, these good people who fire at nothing in their advertising do occasionally miss nothing, and hit somebody and get some business, but we do not think their method is to be commended.—Printers Ink.

DIZZINESS

is only one of the danger signals that nature uses to tell us that our kidneys are not acting right, and that we are in danger of Bright's Disease and other kidney troubles. When the kidneys are not doing their duty the poison which should be filtered out of the blood through the urine remains in the system, and disease results. This condition can be

CURED

I am perfectly willing that my recommendation for Hobbs' Sparagus Kidney Pills be made public for two reasons—first, because it will help others, second because I believe Hobbs' Pills to be a great medicine. I had pains in my back, side and breast, and was dizzy at times. I used nearly everything I heard of and got no relief. I saw Hobbs' Sparagus Kidney Pills advertised at Higgins Bros. Arcade store; I bought a box and before I had finished the first box, I found that they had done me a wonderful amount of good and now my back and sides are free from pain and the dizzy feeling has all left me. I will be glad to recite my experience to any one. J. J. PAYTON, 1814 North St., Springfield, O.

NO CONSUMPTIVE WILL DIE

SO LONG AS HE CAN DIGEST AND ASSIMILATE FOOD.

All physicians admit this. Yet here the difficulty begins. How can we build up the consumptive's body as fast as the disease tears it down? Let us consider.

Cough mixture must be avoided because they frequently contain opiates which arrest the digestion. Their only effect on the cough is by stupefying the nerves. Let them alone.

All foods that are hard to digest must be avoided, especially fats and oils. Only those foods that are easily digested and assimilated should be eaten. Foods not thus accepted by nature do no good; they do harm. Not what is merely eaten but what is digested and assimilated gives flesh and strength.

Consumption is starvation, slow or rapid, as may be. The first symptom is, not necessarily a cough, but a tendency to lose flesh, to grow thin. Stop this tendency now. Don't wait for obvious lung trouble. That's only a later development—only a minor point.

Stop the wasting and you master the disease, even though it may have made some slight inroads already. Increase the flesh and the danger is past.

What is needed is an especially prepared food—a nutriment in itself and a digester of other foods.

Such an article is the Shaker Digestive Cordial, made by the Shaker Community, of Mt. Lebanon, N. Y. It creates a natural appetite and insures the digestion of what is eaten with it. It overcomes the wasting which is fatal in the consumptive process.

A man may lose money and not die a bankrupt. One may have consumption and not die of it. This is science and sense. The success of this new remedy proves it.

When You Get Ready.

When you have consulted everybody else and have been treated for every known and unknown disease; when you have filled your system with one-pattern, ready-made, same-for-all, sure-cure preparations; when you have tried charms, spells, fads, fakes and fancies; if experience has taught you that Nature alone possesses the power to heal, that certain remedies assist Nature, but none of them cure; that it is better to work with Nature than to fight the disease; that the surest way to cure disease is to remove the cause of the disease, then we will gladly assist you with Rational Remedies and methods which tend to build up and strengthen the entire system until Nature can assert herself and the Cause of disease is removed.

We treat the Patient, not the disease. This is one reason why we succeed where others have failed. We have been in Janesville more than ten months and are here to stay. Consultation, opinion and advice free.

IN INSOLVENCY.

CIRCUIT COURT—ROCK COUNTY.—In the matter of the Insolvency of E. R. Inman, by whom a petition for a discharge from his debts, under chapter 179 of the revised statutes of Wisconsin, was filed on the 24th day of June, 1897.

To all whom it may concern: Pursuant to an order made in the Circuit Court for Rock County, Wisconsin, dated June 28th, 1897, all creditors of E. R. Inman, of Janesville, Wisconsin, are required to show cause, if any they have, before said Court at the Court House in the city of Janesville, Rock County, Wisconsin, on the 20th day of September, 1897, at 9 o'clock in the forenoon of that day, or as soon thereafter as the matter of said petition can be heard, why said E. R. Inman should not be adjudged to be an insolvent debtor within the purview of Chapter 179 of the Revised Statutes of Wisconsin, and the several acts amendatory thereof, and why an assignment of the estate of E. R. Inman, such insolvent debtor, should not be made, and why he should not be discharged from his debts and why such other and further order should not be made as shall be just and equitable in the premises.

ONE OF THE BOYS.

By EDWARD EVERETT HALE.

[Copyright, 1897, by the Author.]

CHAPTER I.

The school recess was hardly finished and the boys were yet panting from their last runs when a knock summoned the teacher to the door. In a moment he called Will Mallory to him as he stood there.

"Mallory, your father has been hurt at the mill. You are to go home at once, but you are to stop for the doctor as you go. This man is from the mill."

As Will Mallory followed the man down the stairs, fairly leaping as he went, and as they ran down Linden street together the man explained that in stepping backward at the sawmill Mr. Mallory had tripped. He had thrown out his hand involuntarily to catch his balance and had cut his arm badly on one of the circular saws, "one of them little ones that trim the laths at the ends, you know."

But Will was not very curious as to which saw had been guilty. Once at the end of Linden street, he ran through his uncle's garden. He swung himself by his arms to the top of a ten foot board fence which bounded that garden and then dropped on the other side. Then he crossed the Amos pasture at a 4:20 pace, took the picket behind Dr. Morton's garden with a flying leap and so came to the doctor's office door. Celina, the black woman, saw him as he passed the kitchen window, and the door opened almost as soon as he could have wished.

"Doctor in?"

"No; he is just gone—gone to Elder Perkins' and then to the crossroads. You is just too late."

But before these words were well spoken the boy was gone. From the doctor's gate he took up on the sidewalk the steady pace which had been well trained in hare and hounds. At the first corner he saw the chaise not 200 yards before him. Then with a spurt, to which the doctor's calico horse was by no means equal, he overhauled the team in a very few seconds and still had wind enough to tell his story when he had stopped the doctor. The doctor bade him spring into the carriage, which he did with a certain doubt, being quite certain that he should make the time better alone. But, to do the old calico justice, he also rose to the emergency, and in a very few minutes they were at the door of Will Mallory's house. His mother was standing there, pale, but able to speak cheerfully to him. In a moment more, with his hand roughly bound, but bleeding so that his clothes were covered with blood, Mr. Mallory appeared in the carriage which had been found for him at the mill. He was holding his arm up and resting it upon the perpendicular stay of the wagon top, but Will could see that with every stroke of the heart a fresh spurt of blood was forced out from the rough bandage.

Everybody was in time. "If the thing must happen," said Dr. Horton to his wife at dinner, "it happened as well as it could. That sensible Jane Mallory had her head on her shoulders. In five minutes' notice she had her basins and her bandages and her water and ice all ready. Jove, I did not ask for a thing that was not there. Will, he was as cool as if he had been in the army and had seen a thousand men bleeding to death. He held his father's arm while I was stitching and twining, never said a word, and yet he saw the whole, and he could do that thing tomorrow as well as I can. Mallory was quiet, made no fuss. Well, you know Mallory would not. He's got to be laid up for a month before he can do much with that hand."

CHAPTER II.

I have told this incident in the earlier life of Will Mallory because a good deal depended on it. He staid at home that day almost of course. The next day his mother told him that it would be better for him not to go to school, but to be ready for errands to the mill and elsewhere and to be on hand when Dr. Morton came.

When Will went to school to bring home his books, a business which has a certain sacred aspect in a large school, the boys received the announcement that he was to stay at home for the rest of the term with general disapproval, but Will explained that as long as they chose he would be captain of the football team and play with the nine, and, though his half holidays and whole holidays would not be as regular as theirs, he hoped to co-operate still in most of the enterprises they all had on hand for the public good and their own entertainment, and this promise he well maintained.

So there began for the boy six happy and eventful months. He was his father's companion and friend. The arm got well and was only a little stiff, but even after it was well enough for Mr. Mallory to write Will did not go back to school. His father had learned too well what was the pleasure of having such a companion at his side. He took Will with him on his rides up the valley to see the lumbermen. He took him with him when he went to canoes and to the town meeting. As they rode together he explained to Will his plans about the business.

As for book learning, the boy's father made him take an hour in the morning and an hour before tea for regular reading. Then there was something to read at hand always when he was sitting in the office, and he was not permitted to loaf or to waste time.

In his English training he had his own types and his work as a printer. He seemed to have more leisure for these than he had before. It was not really so, but he made his typesetting "pay in," as he said, with his other work.

It was in setting his own type, in reading his own proof and in printing

accurate circulars that Will learned the correct use of his own language.

CHAPTER III.

"If that Will Mallory was my boy, he would not be going so much to those steepchases and football matches and ball clubs." This was the remark of Mr. Williston, a well preserved contractor, who lived in a large house with six Ionic pillars, a little beyond the Mallory's as you drive out of town on the Plainfield road.

Similar suggestions were made by Mrs. Mallory at the sewing society and by one and another visitor. The "mild police" of the neighborhood was indeed taken with a good deal of surprise at Will's long absence from school.

But one October night Will and his brothers had an opportunity to put the boot on the other leg, and for the rest of the autumn the "mild police" had nothing to say unfavorable to athletic exercises.

Little Jacob Mallory was sent to bed, unwillingly enough, about half past 8 o'clock. His mother was reading "The

The man fired and turned again.

Black Arrow" aloud to the older boys. It was a moonlight night, and before Jacob went to bed he stood looking out of the south window of his room. In a moment, with a certain impetuosity which belonged to the family, he dashed through the passage and down stairs to the sitting room and broke up "The Black Arrow" with the cry: "There are two men on the piazza of old Williston's house! I can see them from my window."

"It is the black burglars!" cried Will, and at the instant he and John and his two older brothers dashed out at the front door. These brothers had fortunately come over from Elmerville, where they were at work, to spend Saturday afternoon and Sunday at home. "You two take the turnpike," said Will, "and David and I will run on this side. You can head them if they try the back way." So he led across his father's garden, cleared the hedge with that running jump which we have seen before and advanced boldly toward old Williston's piazza, but Williston's lawn was a wide one, and before he had crossed a greater part of it he had the mortification of seeing that the two men had caught the alarm. They slid down the posts of the piazza, and, without regard to Mrs. Williston's roses, took the shortest cut for the country road.

Will screamed to his two brothers, whom he had sent to the rear of the house and who might not see the maneuver of the flying enemy. By changing his own track across the lawn he gained on the two men, who were, however, a good hundred yards in the advance. His older brother followed him, not so well trained as he and indeed not so well dressed for running, but he made a good second.

The country road is perfectly level, and, as it happened, the moon lay so as to shine on both sides, unshadowed by the hedges or trees in the gardens. Will saw in a minute that he was gaining. He knew that he could run at that rate for half an hour, and he did not think, from their appearance, that the two fugitives could. The man in the rear paused a moment and dropped his coat, but Will did not stop for that and bade Harry pass it. At the moment he passed it himself the man stopped, turned and aimed a pistol, crying, "I will fire." Will wasted no words. The man fired and turned again. He now put his revolver on his shoulder and fired without aim. It was the worst thing he could have done. He emptied his barrels uselessly and roused the neighborhood, for every one was awake so early on that lovely October evening. So was it that when he and his partner turned for shelter into the Maunders place, where in the close shrubbery they could have dodged almost any pursuit, they met Hannibal, the stout coachman, who, with a view of cheap glory, had seized Mr. Maunders' revolver from the gun-room when he heard the shots and gone out under the porte cochere. The leading fugitive turned, dismayed, and the man with the empty revolver stood still. Will paused not an instant. Resolute and silent, he came on the poor fellow like a 100 pound cannon shot, flung him from his feet and fell with him on the ground. At the instant Hannibal stepped boldly down.

"Here's de pistol, Master Will. Keerful now. He's loaded."

With the pistol Will was master of the situation. The cries of his brothers and their fast falling steps came nearer and nearer. "Lie where you are," cried the resolute boy, "and stretch out both hands!" and to the other, "Hold up both your hands and stand still, or I'll fire." They were both novices at their business. Both were wholly "blown" with running. A legion of Maunders' women were on the piazza, sounding watchmen's rattles and ringing police alarms. In a minute more the other Mallory boys joined Harry, who was already on the ground.

There was no tying the hands of the prisoners, though clotheslines were produced by Hannibal for that purpose. The triumphant boys bade them still hold up their hands, and in this manner they marched them, Hannibal and

75c and \$1.00 Shirt Waists at 39c.

\$1.25, 1.50, 1.75 Shirt Waists at 59c.

July 1st found our Shirt Waist stock down to a few dozen, after a season of remarkable selling. We had not to exceed ten dozen waists left in the store, and knowing how manufacturers like to unload, we made a visit direct to the factories in Fort Wayne and Indianapolis and with the cash made the greatest deal in Shirt Waists ever made by a Janesville store and our customers will get the benefit.

160 dozen Waists, all of the higher cost,—Waists which the manufacturer has been selling at \$6, \$7.50, \$9, \$10.50 and up to \$15 per dozen, all bought at prices which will enable us to divide them into two lots, at.....

39c and 59c

There are no patterns in the line which you have seen before; everything is new, clean and fresh. There is a most beautiful line of the thin sheer materials in light colors, also several good styles in dark colors such as navy blue and black with white figures. The 39c line has all sizes up to 44. * We have had a wonderful sale which will last as long as the Waists do.
